Carisa, Ajax and Uncle Sam Were United States Co. Preparing to Explore Mine at Great Depths.

EXAMINED INSLEY GROUP.

Returns From the Creole-Operations Resumed at the Erie-Mining Notes.

Superintendent A. P. Mayberry of the United States property at Bingham came in from the camp last evening. He says preparations are now being Ajax and Uncle Sam all show the ef- made to sink on the splendid ore lects of the drop, though it is more pronounced in Uncle Sam, which yesterday | nel. After driving about 1,400 feet the sold at \$1.70. Sales were made from | management reached the continuation 1.155 as low as \$1.63 today. Ajax was of the ore chute from the upper levels. traded in as low as \$1.19%, while Carisa This ore body has been proved to be weakened to \$1.20%. Eagle and Blue Bell 310 feet long and about 30 feet wide. sold as low as \$1.0214, while Tesora The big tunnel gives the company opened at 64% and closed at 63%. Te- about 50 feet of stoping below the uptro fell away to 33 while Victor sold at | per workings. Asked as to the value of the ore, Mr. Mayberry said the vast body of ore indicated by the above figures is fully 50 per cent better in qual-it than that exposed nearer the surface. Some water has already been enountered, but Mr. Mayberry says a station is now being cut on the lower tunnel level and as soon as everything is in readiness an incline shaft will be sunk 500 feet on the vein. If the ore improves in the next hundred feet as it is reported to have done in the last feet, the United States will prove to e a greater bonanza than its most ardent admirers have believed it to be.

> BURNHAM WINS. Judge Relapp Dismisses Preshaw's Claim Against Him.

On Tuesday last Judge Rolapp rendered a decision in the case of John M. Preshaw against J. W. Burnham, Sr., B. F. Higgins, James Whittaker, W. Powe, James Schanks and J. W. Burnham Jr., the complaint in which was filed in the Second district court, at Ogden, in last May. In the complaint Mr. Preshaw alleged that on March 1, 1900, he entered into a mining partner-ship agreement with J. W. Burnham Sr., and that since that time Mr. Burnham ignored the agreement and entered into partnership with the other defendants named in the suit, for the purpose of depriving him of his rights. All of the allegations of the plaintiff were denied in toto by the defendants in their answer and after a presentation of their side of the case by Attor-V. R. Hutchinson and he evidence, Judge Rolapp missed the case at the plaintiff's cost.

Visits the Creole.

Frank B. Cooke returned last evening from a visit to Park City. He visited the Creole property and afterwards looked through the Silver King sam-pler and mine. Of the Creole Mr. Cooke says the management has been drifting from the 265 level in a 30-foot vein of quartz. For about 200 feet the company has continued this drifting and within the next 50 feet Mr. Cooke says the continuation of the ore from the upper workings should be encountered. The face of the drift looks very encouraging. Work has ceased temporarily on the property pending the

Mr. Cooke pronounces the Silver King sampler an ideal one. Nothing he says, can exceed the perfection of its

Examined Insley Group.

One of the effects of the develop-ments at the Comstock and California mines in Thayue's canyon is seen in the visit of H. E. Insley and G. M. Mitchell, of Denver, to Salt Lake City. The above gentlemen are respectively the secretary and vice-president of the Insley Mining company, which operated a group of 5 patented claims on the divide between Cottonwood and Uintah mining districts several years ago. At that time a tunnel was run some 37 feet to the vein and an incline was sunk over 100 feet in a very promising vein. Nothing has been done there for several years, but the success of the California and Comstock companies has caused Messrs. Insley and Mitchell to visit the ground with the view of resuming operations. In company with an expert they visited the property a day or two ago. The expert pronounces it a fine looking prospect and it is said that the company wil hortly resume operations with a small

Will Resume Work at the Erie. Work is to be resumed at the Erie ction of Pat Tallon, who has just urchased supplies. In company ohn Alwood he expects to go to the property in a day or two. Operations

will then be resumed in the tunnel, which is now in 772 feet. The present contract calls for 200 feet of work, which, it is believed, will be sufficient tap the ledge. The group is located Columbia district, about 12 miles m Doremus, on the line of the O. S.

Dividing Line Agreed On.

Surveyor H. W. Horne returned from e May Day of Tintic today after line between the May Day and Yane Con properties. This has now been greed to and the permanent dividing ine between the two mines has been narked out. This was very necessary because the best ore bodies in both prop-erties lie near the line. Mr. Horne ays he never saw the May Day when o much ore was exposed. Ore has een found for a distance of 600 feet long the veln, all the way from the haft to the Yankee Con. lines. ere is being opened up every day, and in idends in the near future are being

Will Take Up Their Bond.

Arthur Buckbee, general manager of says it is looking encouraging under present development work, and that the working bond on the Consolidated Virginia and Collateral from Keith and Bamberger of Salt Lake will be taken up when it becomes due. A force of hirty-five men is now employed at th mine, and this number will be increased as soon as development work warrants lt.-Baker City Democrat.

Notices of Location Filed. Provo. Oct. 10.—Alex. Gustafson et al have filed notices of location of Gold Hill Nos. 1 and 2 mining claims, situat-

in Keeler eanyon, Eldorado mining A. H. Rock et al, have filed notice of location of the Alta mining claim, situated about 2,500 feet east of the Pioneer claim in American Fork mining district.

Trust Will Modernize its Smelters Every plant of the American Smelting and Refining company is to be modernized, says the Monday's Denver Post. Every plant will be thoroughly inspected and whatever modern machinery is needed therein will be put in. A smelter for gine ores will be built in Pueble provided the land for it can be secured at a reasonable figure.

These decisions were made at a meeting of officials of the American Smelting and Reining company in the Boston building this morning. The decisions

cisions mean an outlay of several mil-lions of dollars. Daniel Gugg heim, chairman of the genhelm, Barton Sewell, Antone Eliers, Dennie Sheegy and James B. Grant were at the conference this morning,
These are the men who will leave
Wednesday on a general tour of inspection of every plant owned by the
American Smelting and Refining comelting and Refining com-nited States and Mexico The report of these cide what modernizin the different plants. these six men will de ernizing will be done at plants. They will care-each plant and what is fully expect each plant and what needed will be recommended and bought. This means that within six months or a year every plant owned by the company will be thoroughly up

MINING NOTES.

California sold at \$1.271/2 on the curb this morning

The Neptune of Bingham had a car of ore on the market today. Dr. P. A. H. Franklin is expected to

return from Tintic this evening The Lower Mammoth of Tintic had a car of ore on the market today. A car of ore was on the market to-day from the Storey property in Bing-ham,

Some very good ore has been opened up on the lower levels of the Bullion-Two cars of concentrates were mar-

keted today from the Queen mill in Butterfield canyon. Leasers on the United States property at Bingham had a car of ore on the market touty.

The Annandale company is sinking from the 200 level on its property south of the Centennial Eureka.

The Taylor-Brunton sampler reported four cars of ore from Nevada, five from Bingham and one from Tintic today. Manager Posey of the Bingham Con. Mining and Smelting company, has re-turned from his home in California. M. A. Stoddard, who is up from Milford, reports an important copper dis-covery about 15 miles northwest of the

It is reported that C. W. Peterson of Ephraim has discovered a fine ledge of marble in the mountains west of that

Simon Bamberger, J. A. Kirby and David Evans left for Tonapah, Nev., last evening to examine some claims on which they have an option. The Emerald company is still following a vein of quartz on the 600 and 700 levels. Some iron is being encountered

and small values at times. Rol Bemis has returned from Silver Reef, where he and others have sunk a shaft 100 feet on some promising claims. The work is to be continued during the winter.

The Plutus company's tunnel has been driven in a distance of nearly 100 feet toward the ledge. The company's ground lies between the Mammoth and Godiva properties in Tintic.

Prof. Palmer, who has just returned from Park City, reports no change in the Ontario. The Daly company is drifting on the 800 and 1,200 levels without any special change having oc-

The developments in the Crown Point adjoining the Gemini are said to be very gratifying. It is said that a drift will be run to connect with the Ray-mond shaft and the Crown Point ore will be extracted in that way.

A force of seven men is working the old Cave mine near Milford. A great deal of iron ore carrying from \$10 to \$12 in the precious metals, is being exposed, with some high grade. The company is prospecting just above the water level. Thus far no large body of the high grade ore of years ago has been encountered.

Moab Times: F. B. Hammond returned yesterday from Salt Lake. He reports that everything looks favorable for immediate activity in the erection of the Big Indian reduction plant, all Skews-Loose process being No single business proposition is of quite so much importan to this valley as that, and from a pure business standpoint, should receive all gement within the power of the people of this section.

The Silver Bell company, of Thayne's ow driving its tunnel ahead with a back vein. It has get to go to tap it. Those Recently Liquidated Made the Largest

Sugar and Amalgamated Copper Had Big Recoveries - Some Usually Dormant Were Active.

New York, Oct. 10 .- Trading was listless at the opening and reflected no well defined speculative sentiment. Nearly all of the most prominent stocks opened unchanged. Some strength was shown by Norfolk & Western, Republic Steel preferred and Iowa Central preferred, and there were sharp declines in Misscuri Pacific and Consolidated Gas, frading became active and prices rose 1@1% with the short interest large buyers. Stocks which had recently been liquidated, particularly Sugar, Amaigamated Copper and Brooklyn Tansit made the largest advances, but many other leading stocks also showed pronounced strength, especially St. Paul, Norfcik & Western and Wabash preferred. Less active properties, such as Northwest common and preferred, General Electric, Toledo, St. Louis & General Electric, Toledo, St. Louis & Western, Des Moines and Fort Dodge, Colorado Fuel and Pullman were 1 to 4½ higher. Before 11 o'clock the market fell back in sympathy with selling of Sugar, which went off from 117 to below 116. The buying movement was resumed vigorously. Prices advanced beyond the high level reached earlier, and the market showed more breadth. The coalers were notably strong, Jersey Central, jumping 7 points to 168, sey Centra: Jumping 7 points to 168, and Delaware & Hudson gaining 2%. Lackawanna opened 11/2 off and railied 4. Other members of the group rose from 1 to 116. Substantial gains were made by the general run of active stocks, and some usually dormant

stocks were also active. There were slight relapses in the coalers on realizing but the Standard railroad stocks became more prominent and the Grangers, Pacifics, Tractions, Coppers, Sugar, People's Gas and the Trunk Lines made further gains. Top prices in these stocks were from 1 to 2% above yesterday's close. There was a pause in the buying and some reac-tion before the hour expired, but the market became very dull.

An Excellent Combination. The pleasant method and beneficial effects of the well known remedy, Symur or Figs, manufactured by the CALIFORNIA Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, clearsing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal

laxative. In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package. Not The Quickest, But

fact that the pleasantest way to go east is via Denver and the Burlington Route. It isn't the quickest way, but that counts for very little if you

admire fine scenery and are likely to enjoy a stop-over at such places as Glenwood, Colorado Springs, or Manitou. If you prefer to go right through you can do so. Through sleeping-cars for Omaha and Chicago leave the Rio Grande Western depot daily at 2.15 p. m. Through tourist-car Wednes-days and Fridays-Omaha, Chicago, Kansas City, St. Louis. Information on request; or, if you like, see your local ticket

Ticket Office

79 W. SECOND SOUTH ST. R. F. NESLEN.

Through car Salt Lake City to St Louis and Kansas City. Only one change to Ver York, Buffalo and principal points east—low rates for summer travel.

Especial attention to ladies and children.
Tourist sleepers through to Chicago, Boston and other points, without change. TWO TRAINS DAILY.

Inquire at ticket office, 103 Dooly Block, Salt Lake City. Any information cheerfully given.

Lewis' 98 % Lye Powdered and Perfumed.

(PATENTED.)

Joseph E. Taylor, PIONEER UNDERTAKER

The strongest and purest made. Unlike other Lyes, it is findly powdered, packed in a can beying two lids one easily cut and the other removable for constant use. It will make the best Perfuned Hard Scap in 20 minutes without boiling. It is the best for cleansing waste pipes, disinfecting sinks, closets, cleaning paints, bottles, barries; washing trees and killing insects; for engineers and machinists' uses; for painters, to remove oli paints, etc.
